**Subject:** Gold King documents

Paula - David Ostrander in the public meeting said EPA's document on the status and response plan for Gold King would be accessible. A resident in the public meeting had asked, Ostrander acknowledged the document was not accessible, and said it would be made accessible. I am still having trouble finding it. Libby Faulk was busy in a meeting. Lisa was not available. So I am hoping you can help. Please send the document/documents asap. - Bruce
